Advocating for Excellence: Practitioners of Spa and Beauty Association of Nigeria Collaborates with Lagos State for Industry Standardization

The Practitioners of Spa and Beauty Association of Nigeria (POSBAN) is making significant strides in collaboration with the Lagos State government to establish standardization and sanitation protocols within the beauty industry. This initiative aims to combat quackery practices and empower beauty professionals to enhance their skills and knowledge, rather than instilling a fear of business closures. By focusing on raising standards and providing essential training, POSBAN seeks to foster a more professional and regulated environment for practitioners, ensuring that they operate within recognized industry guidelines.

On September 15, 2025, POSBAN hosted a pivotal training session in Ikeja, where the Lagos State Safety Commission provided critical insights into workplace safety specifically tailored for the beauty sector. This training emphasized the importance of maintaining a secure work environment and equipped participants with essential safety protocols for their operations.

In addition to this initiative, POSBAN also collaborates with the Lagos State Health Facility Monitoring and Accreditation Agency (HEFAMAA) to further support a healthier and more regulated beauty industry. Together, we are committed to creating an environment that benefits both practitioners and consumers alike.

We invite anyone in the beauty business to join us and be part of this transformative movement. For more information, please reach out via email at posbannig@gmail.com or call us at 0704 896 3533. You can also visit our website at www.posbann.com for further details.
